SIGNS OF WAR

Again Reported From Mukden and Port Arthur.

Both Sides Have Been Reinforced and Rainy Season Is Over.

St. Petersburg continues without confirmation of the report that the right wing of the Japanese army is advancing north of Mukden, and the statement is therefore not credited at the Russian capitol. Gen. Sakharov reports that there was no fighting in the vicinity of Mukden Friday or Saturday, but notes the arrival of reinforcements for the Japanese along the whole line of the Japanese front. The interval of quiet has afforded Gen. Kuropatkin opportunity to strengthen his defenses and he has received large reinforcements since his retreat to Mukden. There are indications of a revival of the struggle for the possession of Port Arthur.

AMMUNITION AND FOOD.

The stories in circulation concerning the shortage of ammunition and provisions at Port Arthur are not true, says a dispatch. There is an abundance of ammunition for both large and small arms and plenty of preserved food. The use of Chinese shells was merely a saving measure.

"I left Lieut. Gen. Stoessel in the best of spirits. He is encouraged by the heroic example set by the wounded, of whom 5,000 out of the original 8,000 in hospitals, have returned to the front."

RAN AWAY

Three Russian War Vessels Left Vladivostok For Safety.

San Francisco, Sept. 18.—The most sensational news in connection with the Russian cruiser leaked out today when it was learned from an authoritative source that the Lena made a long voyage across the Pacific in company with the Korea and another cruiser, and that the two vessels are now cruising off the coast.

According to this report, which evidently comes from some of the crew of the Lena, she was sent into San Francisco harbor to test American strictness in interpreting neutrality laws. If the United States had permitted the Lena to rest here, then the other two cruisers would have appeared and claimed the same privilege.

The Korea has been sighted of Vancouver, and the other cruiser is somewhere in the great triangle between here and Cape Flattery.

GILL EDWARDS

Pitched in the Last Game of The Season.

The last game of the base ball season was played on the local diamond Friday, between the K. I. Browns and a local Pickett nine. The teams lined up as follows:

Hopkinsville. Pickett nine.
Meyers 1 b., Simms 1 b.,
Marre 2 b., Elliott 2 b.,
Blackburn a. s., Winfree s. s.,
Morris 3 b., Hadden 3 b.,
Brady 1 f., Evans 1 f.,
Maender c. f., S. Morris c. t.,
Bonar r. f., Smith r. f.,
Ketter c., G. Morris c.,
Pettifer p., Gill Edwards p.

Edwards, the Hopkinsville boy, who was with Decatur, Ill., this season, pitched a good game, but his support was in amateur fashion and the game was of course one-sided. Edwards struck out seven men and walked four, two of them being hit by pitched balls. Pettifer struck out four and walked one. The score was 8 to 0 in favor of the Browns. The gate receipts were \$46, of which the K. I. team got 70 per cent.

DIED OF FLUX.

George Catlett, of Eddyville Passes Away.

Proprietor of Mineral Mound Farm and a Prominent Man—Well Known in Paducah.

George Catlett, one of the most prominent men of Lyon county, and well known in Paducah, died this morning at 3 o'clock at his home, "Mineral Mound Farm," between Eddyville and Kuttawa, of flux. Mr. Catlett had been ill only five days, and his death will come as a shock to his Paducah friends, who do not know of his illness.

Mr. Catlett was about 43 years of age. He was clerk of the Eddyville branch constabulary and president of the Lyon County Fair association. He was also an extensive farmer, being the owner of Mineral Mound Farm, which formerly belonged to Hon. Willis B. Machen, a United States Senator from Kentucky. It is a beautiful place, situated on a high hill, and is familiar to many Paducah people, since it has been a summer resort for several seasons for people from this city. It is near the mineral springs at Kuttawa, and is an ideal home for the summer.

Mr. Catlett left a wife, who was Miss Powell, of Princeton, a daughter of Governor Powell, and two sons and one daughter. He was a very popular man and his death will be the cause of sorrow to many. —Newspaper Democrat.

NEW TRAINS

On L. & N. and Important Change In Time Card.

The heavy passenger traffic over the St. Louis division of the L. & N. has necessitated the installation of two new trains which are now in service.

The two new trains are known as Nos. 96 and 97. No. 96, North bound, will pass Hopkinsville at 1:50 p. m., and No. 97, South bound, will pass here at 5:15 p. m. Some changes in the schedule of other trains have also been made. The St. Louis mail, which formerly passed Hopkinsville, North bound, at 9:45 a. m., now departs at 10:10 a. m., and the accommodation arrives here at 7:55 p. m., fifty minutes earlier than formerly. The stop of thirty minutes at Guthrie for supper and Louisville passengers for this city and points between here and Guthrie has been discontinued. A stop of only five minutes is now made by this train. Passengers from Louisville will catch No. 96, one of the new trains, for this place. Other trains on the division will leave here as usual.

CLAIMED BY DEATH.

Mrs. Julia H. Wallace Dies After Long Illness.

Mrs. Julia Wallace, daughter of the late Albert Wallace, died yesterday morning, at 3:30 o'clock, at the home of her brother, Mr. H. D. Wallace, on South Main street. She had been ill for several weeks with fever, complicated with heart trouble. Death came to her peacefully and she passed away with Christian resignation. She was a member of the Episcopal church and her funeral services will be held at that church this morning at ten o'clock.

She leaves three brothers, Messrs. Alfred H. Wallace and Henry D. Wallace and Dr. Howe H. Wallace. A large circle of friends mourn the loss of a lady noted for her exemplary Christian character and many good deeds.

WITH MRS. KEEGAN.

Mrs. Salie McDaniel Richards will be with Mrs. Keegan this autumn and would be glad to have all her friends call on her.

Ophthalmoscope and Retinoscope - Combined.

This instrument is designed to test the eyes and to determine the degrees of the pathological condition of the eye. It also enables optometrists to delineate the pupil. By its use all errors of refraction are detected and measured to an absolute certainty, without asking the patient any questions—thereby leaving the operator independent of the intelligence of the patient. (Great for children). It is the latest and most wonderful production of optical science. By its use the retina (the vessels and nerves) can easily be seen in the eye's face. This is a costly instrument, but as I have been always deeply interested in making a specialty of examining and fitting of glasses to the eye. I have kept up-to-date with the latest and best methods and instruments and feel that the best is no too good for my patrons. They may rest assured that they will get the latest and best service obtainable anywhere—derived from long years of practical experience with up-to-date appliances and for the least money. FINCH AND MOSELEY

Cases Set for Fifth Day of Circuit Court.

The docket for the fall term of the Christian circuit court has been completed. There are about four hundred cases to be called.

The murder case of Laura Brown and others is set for the third day of the term. Finch was given a death sentence at the first trial, but was granted a new hearing. He is in jail here. Moseley is out on bond.

There are a number of divorce suits to be tried at this term, which begins Monday, September 26. The session will last six weeks.

THREE CONVICTED.

One Defendant Paid Up and Two Will Work.

Wallace Kay, col., was tried before Judge Knight Saturday on a charge of vagrancy and sent to the work house for forty days. Yesterday Minnie Sneed, col., was fined \$5 and costs for breach of the peace. The amount was paid. Alex Hobson, col., was also sentenced to the work house for six days for using profane language.

BROKE HER ARM.

Mrs. Judge Brown Victim of Very Painful Accident.

The wife of Judge M. D. Brown, of Madisonville, was the victim of a very painful injury a few days ago. She was enroute from New York City and started to go through the aisle of a coach, when the car gave a sudden lurch, throwing her forward on her face and breaking one of her arms at the elbow. She was brought to Clifton Forge, where she received surgical aid, and she was able to resume her journey the next day. The injury, it is feared, will be permanent.

Mrs. Brown had been visiting relatives in New York for several weeks.

MUSIC AT MR. ADCOCK'S.

Cerulean Band Spends Few Days In the Country.

The Cerulean Springs band which furnished music at the hotel during the summer season, left Friday for this city. The members of the organization went from here to Mr. W. E. Adcock's, near Church Hill, to spend a few days before going to their home in Cincinnati.

Miss Bessie Roberts, a prominent young woman of Anniston, Ala., who was found badly beaten under a vacant house, died of injuries. The case is mysterious and an official investigation is being made.

To the Public.

About two years ago a new grocery store opened up in the Odd Fellow's building, under the name of M. E. Edmundson, with the choicest groceries, fruits and vegetables. We have given due liberal patronage to appreciative customers to make his ends meet. To them we return our sincere thanks and promise to do our very best in the future to retain their confidence.

The personal touch is a key note in our business. It confides us and insures success at all times.

We will plan to buy all goods that we can get at the lowest cost.

Show just a sample of who you are to your friends, who are always glad to patronize. While we have been in the market place in the last few weeks, we have had no pleasure of adding your names to our list of customers, so let us know if you desire your goods to be secured.

This trade is small, but in a short time it will keep clean and up to date. We order fresh groceries every week to replace reduced stock. Come in and inspect our goods and our mode of doing business, and if you are satisfied we will certainly appreciate your patronage.

We also extend a cordial invitation to our country friends, many of whom perhaps will learn from the first time, on seeing this advertisement, that we are in the grocery business, we are a neighbor and your guarantee to please you.

Fair prices, pure groceries, courteous treatment, straight forward dealing and prompt delivery is the plan we have adopted for this store. Phone us — either phone — and we will gladly supply your wants. Tom Edmundson can easily be found behind the counter ready to wait on the trade. Claude Sisk, clerk, would be glad to have all his friends call also.

Respectfully,
M. E. EDMUNDSON

NOTICE!

The people of the Commonwealth of Kentucky take notice that the Fiscal Court of said County will close a session of its regular term on Saturday morning, in the city of Louisville, at 10 o'clock A.M., on the 21st day of October, 1904, and will continue to do so until the adjournment of the same, or until further notice, by the action of the members of the Legislature.

GORMAN A.H. ASSISTANT

Committee in Management of the Campaign

Washington, D. C., Sept. 16. It is reported from different reliable sources that there is no difference between the New York last night, between the Rep. Presidents D. C. and G. W. S. and Ryan, it was the third time Senator Gorman's position he could assist like a committee carrying on the campaign.

Just as "Adviser."

New York, Sept. 16. Judge Parker's reception of visitors at his apartment when coming to New York last night between the Rep. Presidents D. C. and G. W. S. and Ryan, it was the third time Senator Gorman's position he could assist like a committee carrying on the campaign.

A representative of the Associated Press was received by Judge Parker, who said that Senator Gorman had consented to take an important place in the management of the campaign, and that his decision was at the request of National Chairman Taggart, as well as all other campaign managers. He said that Taggart would not be supplanted or superseded in any way, and that Senator Gorman would not be connected with the details of the campaign management. Judge Parker said Senator Gorman would act in an advisory capacity only, and would remain in New York practically all the time from now until election.

ODDITIES IN CIGARETTES.

Fads and Fancies of Young Men Who Prefer to Roll Their Own Smokes.

"The expression, 'burning money,' can be used literally in my business," said the man in brown as he held an old cigar beside him in the safe. "I'll guarantee I see more money go up in smoke than any man in this crowd."

They all seemed to be in office to roll their own smokes for the express of it. One young man said, "We never plan to buy all good things we are going to get satisfied in quality."

Show just a sample of who you are to your friends, who are always glad to patronize. While we have been in the market place in the last few weeks, we have had no pleasure of adding your names to our list of customers, so let us know if you desire your goods to be secured.

Killed a Negro.

C. C. Crossland, son of Hon. Sam Crossland, the well known Mayfield lawyer, shot and killed a negro at Wickliffe, Ky., last Saturday night. Crossland had gone out in company with an officer, to a police festival to make an arrest. George Hanna, a negro, drew a pistol on Crossland, who shot and killed him. — Cadiz Record.

Stock Law at Cadiz

At a meeting of the city council last Friday night the city attorney was directed to draw an ordinance and present it at the next monthly meeting of the council, submitting to the voters of the town the proposition whether stock shall be permitted to run at large upon the streets of Cadiz — Record.

According to official figures, the Japanese losses in the battle of Liao Yang were 17,500, while the Russian losses were 50,000.

At New York the local agent of the London and River Plate Bank announced a shipment of \$500,000 in gold to Buenos Ayres.

Gen. Sarsutitch, with a force of 3,000 Russian soldiers, had been captured by the Japanese in the vicinity of Mukden. Gen. Sarsutitch was severely wounded.

Nearly 5,000 of the 12,000 former stock yard employees who applied for work were taken back. A large number of nonunion men failed to report for work.

The dancing school teachers in a national convention at St. Louis decided to discourage the "two step" and so far as possible relegate it to the rear.

AT GUTHRIE

The Tobacco Planters Will Meet Sept. 24.

Plan Is to Organize The Farmers to Fight the Tobacco Trust.

To the Kentucky.

The most important event in the history of tobacco growing is near hand. The event will be the gathering of the planters at Guthrie, Ky., Saturday, Sept. 24, 1904, the purpose of organizing them selves as a protest against the low prices.

We had a clear demonstration, on the part of the tobacco trust, and its confederates, in the way they bought the crop that grew in 1903, of how low they can buy. Enough of a thing is enough to practical men.

The undenied and undeniable fact that last year's crop was bought below the cost of production fully satisfies our planters that the price of tobacco at their barn doors was low enough.

Hence, we will meet and form the Tobacco Planters' Protective Association at the appointed day mentioned above. This meeting to be held at Guthrie would never have been called had the tobacco trust & co. been wise. They did not call these tobacco buyers, with the tobacco situation so well in hand, not pay a liberal price for last year's crop?

Had they done so, no gathering of the planters to form a protective association would have been called so soon. But these hungry, heartless, unfeeling creatures of Mammon, knowing no grace and kindred, the men that take the golden egg in their right hands, buy out the others for the rest of produce.

It is the duty of the tobacco trust and its confederates to accept the call of the Kentucky, Ky., Saturday, Sept. 24, 1904, to a mass meeting of tobacco growers and all others interested in the tobacco business.

W. G. Jones, Nashville, Tenn., Oct. 22, 1904. The Illinois Local stockholders of the Kentucky Consolidated and the tobacco companies have invited him in a letter written at New York City, Sept. 3, 1904, to come a conference in order to three concerns which vote 50 per cent.

The proposed company will control the entire business of the country.

To the planters, we feel it to be our bounden duty to urge you to a Mass meeting in the interest of the women and children that are so dear to you; to the interest of the material prosperity of this section of your country, known as the Clarksville Dark tobacco district; in the interest of your liberty as Americans; else you will deserve the name of cowards and the very women and children will croak the finger of scorn at you.

Kentuckians and Tennesseans of the Clarksville Tobacco District, can you stand that? We cannot, and will go to Guthrie and enter the organization.

Cancer Cure By Blood Balm—All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm, which effectively cured an eating cancer of the nose and face. The sores healed up perfectly. Many doctors had given up her case as hopeless. Hundreds of cases of cancer, eating sores, suppurating swellings etc. have been cured by blood Balm. Among other cases, Mrs. B. M. Guernsey, Warrior Stand, Ala. Her nose and lips were raw as beef, with offensive discharge from eating sore. Doctors advised cutting, but it failed. Blood Balm healed the sores and Mrs. Guernsey is as well as ever. Botanic Blood Balm also cures scrofula, rheumatism, acne and scales, bone pains, ulcers, offensive pimples, blood poison, carbuncles, scrofula, risings and bumps on the skin and all blood troubles. Druggists, \$1 per large bottle. Sample of Botanic Blood Balm free and prepaid by mail. Price 50 cents a bottle. Ga. Describe trouble and special medical advice will be sent in sealed letter. It is certainly worth while investigating such a remarkable remedy as the Blood Balm. Cures the most awful, worst and most deep-seated blood diseases.

Former Congressman Sam J. Pugh has been nominated by the Republicans as their candidate for Congress in the Ninth district.

New Jersey Democrats nominated Charles C. Back of Hudson county, for Governor. The convention was harmonious.

The Montana Democratic convention defeated a fusion proposition from the Populists and nominated a ticket headed by Gov. J. K. Toole.

Boss Platt was not made by the Republican convention in New York, and Boss O'Neil was enthroned in his stead. Huron and Quay are dead and Platt is poised, but the Republican party will continue to be a boss ridden party. Teddy is something of a boss himself.

Judge W. H. Mackay, in a test case at Covington, holds the Bradley registration law to be unconstitutional. At present it will be taken and the law will of course remain in force until the Court of Appeals passes upon it.

Frank W. Higgins, first elected governor, has been nominated to be a governor of New York by the Republican convention, controlled by Gov. Odell. Higgins is a man of large wealth who has been in the State Senate for ten years.

The tobacco planters of the Clarksville district will meet at Guthrie next Saturday for the purpose of organizing for mutual protection against the Tobacco Trust. The undertaking is a task of herculean proportions, but it is about the only recourse left to the victims of the trust. The dark tobacco district comprises only a few counties and it is possible to organize the growers of these counties and prevent the trust from securing the present crop without paying a fair price for it.

\$100—REWARD—\$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrhal Hall's Catarrh Cure is the only positive cure now known to the medical authorities. Catarrhal being a constitutional disease requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by putting up a strong constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for testimonials.

The October Delineator is a many featured number, containing, in addition to a complete survey of the autumn fashions, entertaining fiction and special articles of wide interest. Richard Lee Gaillenne contributes the first part of an idyl, "Poet, Take Thy Lute," an exquisite dream tale, comprising some tuneful lyrics and there is a clever bit of fiction by Ellen Douglas De Land, entitled "The Mother of Emeline," and also the first part of a story by Ethel Watts Mumford, "A Matter of Millions," a delightful commingling of humor and pathos. A series on "The Loves of Great Composers" begins in the number with the story of Beethoven and his Immortal Beloved, which is filled with interest, not only for music lovers, but for every one who has a liking for romances of the heart. Christine Terbune Herrick writes of Field Hockey as a new form of recreation for girls, the article being presented with the hope of giving this healthful exercise wider popularity in America. Lillie Hamilton French has a serious paper in the "Joy of Living" series, on the value of the Written or the Spoken Word. The story of Mary Dudley concludes the series on Great Women of Pioneer Times, and Physical Exercise is discussed in "The Fountain of Youth." For young people are provided stories and pastimes that amuse as well as instruct, and the domestic interests are treated thoroughly and practically.

Capt. C. T. Allen, of Mexico, Mo., says the Paducah News-Democrat, lawyer, lecturer, journalist and gallant Confederate veteran, will on Nov. 1, begin the publication of the "Southern Sentinel," a monthly magazine devoted mainly to Southern history, Southern men and their achievements in the creation, growth and development of the American republic from the first permanent English settlement at Jamestown, Va., A. D. 1607, down to the present time, and to the discussion of Southern interest generally. Capt. Allen formerly published the Banner at Princeton and was in the late constitutional convention.

The last legislature passed a law making the circuit clerk the chairman of the county election board, in counties containing second class cities. This was intended to remove Sheriff McLoone of Covington. A test suit was brought and special Judge Lessing decided that the new law was class legislation and therefore unconstitutional and void.

The speech-making of the presidential campaign in Kentucky, will be inaugurated by the Democrats on October 3, at various points in the state. All of the speakers available will be given assignments for that date. At present general apathy prevails but it applies to both parties alike. There are no indications that the Republicans are going to pay any attention to Kentucky, except in two or three congressional districts.

The Russian transport Lena, which crossed the ocean to seek refuge in the San Francisco harbor, will be dismantled and allowed to remain until the close of the war. It has not been determined what will be done with the 466 members of the crew. They want to return to Russia by way of New York.

A negro man named Fred Lee committed suicide at Louisville by jumping into the canal, because he owed \$45 he could not pay. It all those who contract debts they do not expect to pay were to jump into the river, the stream would be eventually dammed.

The meet at the First District met at Paducah Saturday and after being addressed by their Presidential candidate, Tom Watson, nominated Dr. J. H. Lackey, of Trigg county, for Congress.

A State conference of the D. A. R. will be held in Louisville next week and a reception will be tendered the visiting delegates at the Louisville Hotel on the evening of Oct. 1.

Prince Herbert Bismarck, son of the great German chancellor, died Sunday, aged 55 years. He leaves five children and a \$1,000,000 estate.

The attendance at the World's Fair on St. Louis day was 404,450.

The Republicans had it all their own way in the attempt at Covington to knock out the registration law. The plaintiff, the defendant, the judge and the attorney were all Republicans. The Democrats will be represented by McQuown & Brown in the Court of Appeals and will try to get the case heard today. Able lawyers say the new law is not unconstitutional.

The State Central Committee will meet with the district committee at Somerset to-morrow when the court order to re-count the vote in the Edwards-Hunter primary is obeyed. After the re-count has been made, Dr. Hunter will doubtless have one of Gen. Kropotkin's famous reports to make, "I regret to announce off, etc."

Trigg county has named 32 delegates to attend the farmers' meeting at Guthrie next Saturday to discuss the tobacco situation. Christian county will send a still larger delegation.

The triennial catalogue of Yale College gives a total of 23,035 graduates, of whom 12,144 are living. The next catalogue will not be issued until 1910.

A GREAT PLAY.

"The Sign of the Cross" To Be Presented Here.

Wilson Barrett's great play, "The Sign of the Cross," which has been the success of two continents during the last five years, will be presented at Holland's Opera House next Monday night, Sept. 26. Although the piece has been of the greatest theatrical attractions of the day and is well known in all of our largest cities, this is the first time that it has made a tour comprising any but some twenty of the most prominent cities. It is gratifying to be able to state that the company that comes to us is as strong dramatically as the organization that William Greet has been sending to America and which ran for weeks each year in such cities as Boston, Chicago, Philadelphia and Baltimore. The scenery, costumes and appointments are the same that Mr. Greet sent to this country for the original production of the piece at the Knickerbocker theater, New York. The company is composed of English and American actors who have been selected with special reference to their temperamental fitness for the parts entrusted to them.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bone called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

To Heater Wanters!

Just imagine a heater that will get the same result out of one 1-4 ton of the cheapest kind of soft coal as a high price bad burner will with one ton of hard coal.

That is what is claimed for the Buck's Hot Blast, and in order to prove it we are going to give a demonstration in front of our store on

September 20, at 9 O'clock.

We are going to show that 38 per cent. of gas and smoke in soft coal can be, AND IS USED as fuel in this wonderful heater. If you have any idea of buying a heater, you should call and let us show you a Buck's Hot Blast. It is just exactly what you want. See it on exhibition in our window.

GEO. W. YOUNG.

The October "Smart Set."

The October "Smart Set" is a veritable mine of brilliant stories and poems. "Moored," by Anna A. Rogers, is the title of the novella which opens the issue. It is a story full of power and quiet humor, dealing with the temptation which comes to the young wife of a naval officer while he is abroad and she is "moored" at home. The tale leaves a remarkably vivid impression and will attract wide attention.

Gouverneur Morris, in his short story, "The Lady of Moods," has written as striking a piece of work as has recently appeared in any magazine. Its wonderful art stamp this young author as a genius. In a widely different vein is the late Guy Wetmore Carryl's humorous tale, "A Tide in the Affairs of Stephen Girdler." It is brimful of delightful character drawing. In "The Two Ghosts," Richard Le Gallien is at his best as a good-natured satirist and brilliant epigrammatist. "When Delos Dried," a story by Beatrice Demarest Lloyd, is a new writer of great promise, is one of the most notable in the number, though one must remember the poetic beauty of Zona Gale's "Land a Great Way Off," the intense realism of Theodore Water's "The Passing of Gon Out," the keen analytic power of Willard French's "The Mastiff," a story of political life in Washington, and the cleverness of Barry Pain's "The Rewards of Perseverance," the last and perhaps the best in the series of detective stories which the distinguished English author has written exclusively for the Smart Set.

Two essays, one by Agnes Repplier, the other by F. J. Knight Adkin, add charm to this number, and there are excellent poems by such favorite verse-writers as Joaquin Miller, Ernest McGaffey, Theodosia Garrison, Madeline Bridges, P. McArthur, Frank Little Pollock, Thomas Walsh and Arthur Macy. Variety is the distinguishing note of the October Smart Set, and no two of its stories are in any way alike.

TO BE DISARMED.

Russian Transport at San Francisco Will Remain.

Washington, Sept. 16.—Announcement that Capt. Berlinky, commanding the Russian transport Lena at San Francisco, acquiesced in the details of the process of disarmament proscribed by this Government and would proceed to take advantage of the permission, reached the Navy Department over night in a telegram from Rear Admiral Goodrich.

The street roller, while being operated Friday night on Main street, knocked down the iron post used to hold Ray & Fowler's big drug sign on the corner of Ninth street.

TO PROVE EARTH ROUND.
Simple Experiment That Was Tried
in England Thirty Years Ago.

Although it was demonstrated more than 2,000 years ago that the earth is globular in form, there are certain persons who maintain that it is flat. About a century ago controversy arose on the subject waxed so hot that it was felt unable to put the matter to direct experiment in order to settle the question once and all. Philadelphians Record.

The place chosen was near Bedford, England, where there is a straight six mile stretch of water. At both ends of the middle of this water post were erected each of the same definite height above the water level. Upon looking with a telescope along the top of these three posts it was clearly seen that the center one overtopped the others by about six feet, owing to the curvature of the surface of the earth.

These experiments were recently repeated in a more scientific manner by H. Yule Oldham, who read a paper on the subject before the Glasgow meeting of the British association. The same results were obtained, with the important difference that by the employment of a telephotographic lens and camera the six foot prominence of the middle post was recorded in an unmistakable manner.

CERTAINLY A BRAVE GIRL.

Daily Task of Invalid Rural Mail Carrier in Helping Her Mother.

The bravest girl in the state of New Jersey on Uncle Sam's list of rural mail carriers is Miss Villa Potter, of Willow Grove, says the New York Times. She carries the mail from Newfield, Gloucester county, to Port Union and the surrounding country, covering a route of 29 miles a day.

Miss Potter has been an invalid for 18 years, being a victim of typhoid fever when 15 years old. Her father, Michael Potter, was killed in a well several years ago, and her brother, Frank, died during his mother's illness.

A peculiar discovery has been made in connection with the wreck of the Rockland. It rests directly upon the bulk of the old steamer at Rockland was worth about \$100,000.

A peculiar discovery has been

made in connection with the wreck of the Rockland. It rests directly upon the bulk of the old steamer at Rockland was worth about \$100,000.

Every morning her mother wheels her out to the mail wagon and assists her to get in. The farmers all along the route built the boxes close to the roadside, so that the invalid can deliver the mail without getting out, for she cannot stand alone. Her mother takes care of three horses and two cows, and by the help of her daughter makes a comfortable living.

Miss Potter's appointment two years ago was enthusiastically approved by the people, who, she says, show her every possible kindness. Her popularity increases because of her punctuality.

FINE TEA FOUND IN BRAZIL.

Beve — Made from Yerba Mate an

Excellent Substitute for Chinese Product.

United States Consul Ayres writes from Para a recommendation of a Brazilian beverage, yerba mate (or), which is prepared from coarse and pulverized leaves of a green forest tree.

Yerba mate is largely consumed

in Paraguay and in the Brazilian states where it is made. It is ex-

tensively consumed in Argentina,

Uruguay, and to a less extent in Chile. There is a small consump-

tion in other states of Brazil, and a small quantity is exported to Eu-

rope and still less to the United States and Panama. Estimated

exports may reach 15,000 to 57,000

annually.

Yerba mate has a peculiar bitter smoke taste, which is usually con-

sidered unpleasant, and this has

largely operated to prevent its

more extensive use as a beverage.

This shilly-shallyness is chiefly due to the rude method employed for

drying the leaves and it seems

likely that the improved methods

of drying the mite on iron or cop-

per pans would give a much more

delicate and agreeable product.

It is said to have all the best

qualities of coffee and tea as a

stimulating health beverage, with

the disadvantage of ether. It is

a more gentle stimulant than

either and is said to be much used

in the hospitals of Paris.

The tree could probably be

grown in southern California, per-

haps in southern Texas, certainly

in many parts of the Philippines.

Brilliant Clocks.

The municipality of Berlin has

decided to hang clocks, worked by

electricity and in connection with

the observatory, at all the prin-

cipal corners of the leading streets.

The dials of these clocks will be

illuminated at night. They will be

suspended from the poles support-

ing the electric lamps which light

the streets. A beginning has been

made with 17 clocks, and should

the experiment succeed 300 of

these clocks will be scattered over

the city.

PEMBROKE GAME

Was Too Easy to be Interesting Thursday.

The game of base ball at Pembroke Thursday between the Hopkinsville K. I. T. team and the Pembroke team reinforced from Clarksville, resulted in an easy victory for Hopkinsville, the score being 14 to 1.

The line up was as follows:
 K. I. T. Pembroke.
 Blackburn s. a., Starr 3rd b.,
 Marre 2nd b., Mullen c.,
 Morris 3b., Mullan c.,
 Meyers 1b., Dr. Barker r.,
 Maender cl., C. Bourne 1b.,
 Bomar r., R. Bourne 2b.,
 Brady 1f., U. Bourne lf.,
 Ketter c., James c.,
 Alexander p., Willis p.
 Willis the Clarksville pitcher, made a poor showing and in the eighth inning he was taken out and Mimms, an amateur, finished the game. The only score made by the Pembroke team was in the second inning when Dr. Barker singled and stole second and R. Bourne made a hit and scored Barker. The proceeds of the game amounted to \$20.50, of which the K. I. T. team got \$9.95.

CLOSE RACE

In Third District Between Porter and Richardson.

Reports from mass county conventions held in the Third district Saturday to select delegates to the district convention to nominate a Democratic candidate for Congress show a close race between N. A. Porter and J. M. Richardson. Porter has 45 instructed votes and Richardson has forty-six, of which the seven votes in Allen and nine in Todd are contested by Porter. The eight votes of Simpson county were instructed for E. J. Hobby. There are 99 votes in the convention to meet at Scottsville to day. Hobby's vote will go to Richardson with Hobby out.

The "Kitty" League.

Clarksville, Tenn., Sept. 17.—All of the 1904 Kitty League team here have been signed by E. C. Morrow, who controls the local franchise, for the season of 1905, with the exceptions of Collings, Willis and Smith. It seems an assured fact that Clarksville will have a pennant winning team next year and it is said to be possible at least, that this city may be in the Southern League or possibly the Central.

Stepped on Its Own Tongue.

If this did not come from such a reliable source it might be doubted, but the Springfield News Leader vouches for it and that is sufficient. The News-Leader says:

Last week Dowden Veatch, who lives just across the line in Taylor county, was the eyewitness to a most peculiar accident. He had been working one of his mules during the day and took it to the creek near by to water it. Having drunk all the water it wanted it stepped a few feet to the side and began to lick the blue soil, which seemed to contain a salty substance. The animal persisted in remaining as long as possible at the "blue lick" and finally urged to move it stepped on its own tongue with one of its fore feet and in the struggle to free itself from this peculiar position tore or cut off seven inches of the licking member.

MORE SUITS.

Three Filed Since the Kentuckian's Last Report.

Last Friday was the last day for filing suits for the fall term of court. Since our last report the following petitions have been filed:

J. P. Thompson & Co. vs. A. O. Dority & Co.; Same vs. J. H. Bell and J. H. Anderson, and Mrs. C. Lee vs. I. C. railroad company.

The plaintiff in the first case asks for \$2,418.75, claiming breach of contract. In the second suit plaintiff charges that defendant attached a lot of his tobacco, which was sold by order of court, causing him to lose heavily, and pays for \$1,000 damages.

In the third suit plaintiff asks \$1,000 damages from the railroad. It is alleged by this plaintiff that recently she was a passenger on defendant's train and on leaving the train in Louisville, she stepped in a hole in the platform, injuring one of her feet.
